J/80 Standard Building Specifications

Items in red are updated since August 16, 2018

_				1	Items in red are updated since August 16, 2018
<u></u>	Standard Fitting Description	_			Permitted Modification and/or dimension reference
	Francisco de la Contracto de l	Minimu	Actual	Maximu	D TI
1	Forestay chainplate (stainless)				Builder supplied
2	Bow pulpit (stainless)	450mm			Builder supplied - continuous height rail (France) or dipped rail (USA). Dimension of pulpit height above sheer line.
3	Bow "U" bolt mooring eye (stainless)				Option for 1 or 2 cleats in lieu of eye; option to add 1 or 2 bow chocks.
4	Foredeck toe-rail molded into deck				If not molded into deck, then builder supplied teak or plastic rail toe-rail bonded and fastened to the deck.
5	Shroud chainplates (stainless)				Builder supplied
6	Foredeck opening hatch		420mm x 420mm		Builder supplied (BSI Moonlight or Lewmar). Hinges may be mounted forward or aft.
7	Two anodized jib T-tracks		1m x 25mm		Option to increase number of adjustment holes. Option for two genoa tracks installed, but only usable in class racing (with a block) as a jib sheet cheek block.
8	Two jib sheet cars				Pull-pin or screw pin. Position optional.
9	Two jib sheet car blocks	40mm		54mm	Sheave diameter
10	Option for one pad-eye and block forward and outboard of each primary winch for jib sheet tail.				
11	Swivel mounted boomvang jamming cleat on molded boss on each side of coach roof.				Option for centerline cascade 8:1 system with one ratchet block and no cleats on deck. Option for rigid boomvang.
12	Boomvang large block (where 2:1 passes)	54mm		78mm	
13	Boomvang smaller blocks (for cascade purchase)				Block size optional
	Two primary winches of up to 32.2:1 gearing mounted in standard builder location with two 150 cam cleats on vertical cockpit sides				Option for self-tailing winches
15	Option for one or two halyard winches not to exceed 16:1; each with a 150 cam cleat on vertical face of cabin back.				
	One winch handle				Option for additional winch handles
17	One winch handle holder (optional)				Multiple holders and other storage bags permitted.
18	Tack line system of one bullseye fairlead on deck and either one clutch or one cam cleat with fairlead mounted on starboard side of cabin house.				
19	Mainsheet traveler track with car, and in line cam cleats and turning blocks mounted port and starboard on vertical cockpit wall.				
20	Mainsheet system with swivel arm, block and cam cleat assembly mounted aft of traveler; fiddle block mounted on traveler car and fiddle block connected by strop to the boom.				Option to add mainsheet fine-tune forward of the traveler track using a swivel base/cam/ratchet assembly with maximum 54mm block diameter and maximum combined purchase (rough & fine tune) of 12:1.
_	Mainsheet base block - ratchet Mainsheet fiddle blocks	54mm 48mm		78mm 58mm	
23	Backstay adjuster hardware of two cam cleats and five feed blocks mounted in standard locations.	46IIIM		Milioc	
	Bow sprit launch line led through aft of cabin trunk via thru-deck ferrule and cleated to cam cleat on				
	vertical face of cabin back.				
25	Furler line system of two fairleads on deck and one cam cleat with fairlead mounted on port side of cabin house.				
	Six stainless stanchions with bases with single lifeline. Lifelines secured to stern rail with lashing or trunbuckles.	450mm			The USA style dipped rail bow pulpit requires one lifeline per side. Dimension is lifeline height above sheerline.
27	Two stern pushpits connect with a single lifeline.	450mm			Height above sheerline.
28	One fixed plexi-glass cabin window on each side of coach roof.				Builder supplied

	I			
	GRP molded seahood which slides captive under			
29	two stainless steel cover plates fastened to the			Builder supplied
	deck.			
30	One plexiglass companionway dropboard capable			Builder supplied
	of being secured or locked from belowdecks.			
	Two inspection parts (Part and Starbaard)			Ontion to install and additional inspection part is oft of adduct to
31	Two inspection ports (Port and Starboard)			Option to install one additional inspection port in aft of cockpit to
	mounted in aft area of cockpit.			access rudder hardware.
32	Laminated wood tiller with stainless rudder straps			Builder supplied.
32	or composite tiller with no straps.			Bulluel Supplied.
33	One tiller extension			Option to carry spares
34	Stainless rudder gudgeons and pins			Builder supplied, but may be replaced with like or heavier.
	Gennaker sheet system with four blocks and two			
	150 cam cleats. Two forward blocks attach to the			
35	mid-cockpit stanchion bases. The two aft blocks			
	attach either to the welded eyes at pushpit base or			
	U bolts mounted just forward of the pushpit base.			
	o boits mounted just for ward of the pushpit base.			
36	Two aft gennaker sheet blocks	48mm	58mm	
37	Two amidships gennaker sheet ratchet blocks	54mm	78mm
